**1-800-New-Pews**

Born Again Pews - Made in America  
1-800-NEW-PEWS [www.NewPews.com](http://www.NewPews.com) PH: 540-484-4913

At **Born Again Pews**, we use high quality, beautifully grained, kiln dried oak lumber.

***You will not find any particle board in our pews***

We use a process called solid panel construction. In this process the grains are offset when the two panels are glued together. This helps to prevent splitting that often occurs with butcher-blocking. Our solid wood ends and supports are guaranteed for the life of the pew.

In the finish department, we use only the finest stains and finishes available. We apply two coats of sealer and three coats of high gloss lacquer. We have many rich Minwax finishes to choose from. The fully upholstered pew comes with the commercial grade, stain resistant fabric of your choice. We have many styles and colors of fabrics to choose from. The very comfortable cushioned pew back, combined with the contoured seat provides you with the ultimate comfort. The cushion on the pew back is a full two inches thick with lumbar support built in! The seat cushion is a full four inches thick. This makes for a very comfortable pew. The ends are a minimum 1 ½" solid oak.
